Study Overview

The Tea Area Transportation Plan (TATP) is a collaborative effort between the City of Tea, partnering agencies, the public, and study stakeholders to develop a long-range transportation plan for the City of Tea and surrounding area. This Plan will help guide transportation decisions and investments for primary modes of travel, including vehicle, bicycle, pedestrian, and transit. The study is currently in the preliminary stages of gathering information, conducting analyses, and receiving input from the public and area stakeholders to define transportation issues and needs within the Tea area.

PUBLIC OPEN HOUSE INFORMATION

Today's Meeting Objectives

Thank you for attending the Tea Area Transportation Plan (TATP) public information open house. We appreciate your input!

In this first public meeting, the study team is looking for your help in identifying two key items:

Transportation issues and needs throughout the Tea area to be addressed by the TATP.

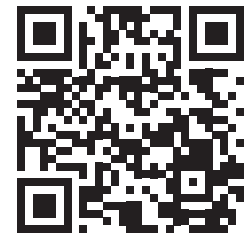

Goals and priorities to be incorporated into the TATP.

Please provide your comments by August 9, to help shape the TATP!

Scan to Provide Feedback!

Show us on a map where transportation improvements are needed.
